

E-LINE FEATURES

- » Purpose built A92.2 aerials, not a 'dual rated' crane. Increased efficiency and productivity by eliminating the need for trial lift and proof testing.
- » 30MPH wind rating - 33-50% more than dual rated cranes.
- » 14,000 lb. main boom lifting capacity - allows machine to lift materials if needed.
- » EZ Crib Outriggers - have 30" additional vertical penetration to significantly reduce the amount of cribbing needed, saving time and money.
- » Integral hydraulic tool circuit with intensifier - runs hydraulic tools from the units hydraulic power, increasing net platform capacity.

DIGGER DERRICK FEATURES

- » Long booms for big jobs - tip heights from 86 to 115 feet are perfect for your transmission and storm jobs.
- » Maximum digging radius of 41' or more - do more work with a single set up.
- » Industry-leading material handling capacities - lift heavy loads with ease.
- » Mounts on tandem axle chassis - all Elliott Digger Derricks mount on tandem axle chassis to improve maneuverability.
- » Full pressure hydraulic controls - provide tactile feedback to user.
- » High Pinpoint Boom Geometry - maximizes lift cylinder leverage and power 'out of the hole'.

BOOMTRUCK CRANE FEATURES

- » Operator-centric ergonomics
- » Proprietary low-friction wearpad design
- » Heavy-duty boom tip design
- » Two-year parts and labor warranty and lifetime structural warranty

HIREACH FEATURES

- » Point & Shoot telescopic design - eliminates risk of articulated tailswing.
- » Incomparable side reach - maximizes the work you can do in a single setup.
- » Main boom material handling - lift loads up to 14,000 lb; turn two truck job into one truck job.
- » High capacity work platform - allows two workers and tools to have room to work.
- » Office In The Sky tool suite - operate 110V, air or hydraulic tools, and other accessories.

JACK'S GOT YOUR BACK.

UTILITY SOLUTIONS
MULTIFUNCTIONAL, POWERFUL, PRECISE, RELIABLE

WHO WE ARE

We started an industry in 1948, and we haven't stopped yet. For over seventy years, Elliott has been committed to delivering rugged design and multifunctional operation built with the finest components available. Today, Elliott proudly carries on our tradition of high standards for quality, safety, and durability, working to design and build the best equipment available to keep you working safely and efficiently.

BUILT FOR YOU

Our mission is simple: **creating the best solutions for lifting and positioning people and materials.**

You can count on us to listen to you, take the time to understand your application, and deliver the optimal solution for your job and the way you work.

ELLIOTT IS THE SUPERIOR CHOICE

We know that utility users face a unique set of challenges, including safety and maintenance concerns and time and budget constraints. With Elliott's extensive experience and impressive roster of clientele, you can rest assured that we will work with you to ensure the best return on your investment.

Safety / Elliott machines are designed, built, and tested to meet or exceed all relevant ANSI, ASME, and OSHA regulations, and Elliott engineers actively participate on the committees that develop these standards.

Utilization / All Elliott machines are multifunctional and can be equipped with extras to do even more. This maximizes utilization and your return on investment.

Efficiency / Elliott users rave about the increased productivity and functionality they enjoy with their machines. The ease of setup, wide side reach to reduce the number of setups required, multifunctionality and ability to have all tools ready and available at height make jobs go quicker and let one crew tackle multiple assignments.

Maintenance / Elliott machines are backed by industry's best warranty, so they stay on the job and not in the shop. We use high quality components from industry leading suppliers without a bunch of private labels. Local Elliott distributor service and support takes care of the rest.

ELLIOTT UTILITY SOLUTIONS

E-LINE MATERIAL HANDLING AERIALS

When your job requires you to reach 120 feet or more, Elliott's E-Line aerial work platforms are the tool of choice. Featuring working heights from 120 to 240 feet, material handling and available 500kV insulation, the E-line will take you where you need to go. Designed, built, and tested to comply solely with ANSI A92.2, the E-line is a no-compromise, purpose-built solution. Standard features like EZ Crib outriggers, integral hydraulic tool circuit and grounding lugs, DynaSmooth controls, 30 MPH wind rating and anemometer save time and increase efficiency.

DIGGER DERRICKS

Elliott Digger Derricks are built for your most challenging jobs. Featuring the industry's tallest tip heights, widest digging radii, highest torque and largest lifting capacities, choose Elliott for your most demanding construction and storm work.

BOOMTRUCK CRANES

Elliott offers the most customizable cranes in the industry. We know your work is different and is not always fit with a cookie-cutter solution. We welcome special orders and will work closely with you to ensure you get the machine you need.

HIREACH MATERIAL HANDLING AERIALS

Elliott's HiReach truck-mounted aerials combine spacious work platforms with a variety of available tools and material handling capabilities do the work of multiple machines, maximizing your fleet utilization.

WARRANTY, FINANCING, AND MORE

THE INDUSTRY'S BEST WARRANTY

Elliott machines come with a comprehensive Parts and Labor warranty as well as a Lifetime Structural warranty. This provides users with the best protection in the industry. It not only reduces ownership costs, but also reflects the quality of our products.

SERVICE NETWORK

Elliott's worldwide network of service and sales distributors provide peace of mind, ensuring that you have the backing of a constantly growing support network for your investment.

FINANCING & RENTALS AVAILABLE

Elliott's **Built For You** financing solutions will help match your equipment and cash flow needs and our rental partners can assist with your short term equipment needs.

TRUSTED BY AGENCIES LIKE YOURS

Utilities and contractors across North America rely on Elliott to tackle their toughest transmission and substation jobs. With a wide range of working heights and crane capacities available, Elliott has the right tool for the way you work.

Elliott will work with you to ensure your machine is optimized for its application and for the way you work. Our engineers will work closely with you throughout the process to make sure you get just what you need to help you work more efficiently and safely.
