

THE EASIEST SONDE LOCATOR ON THE MARKET.

Meet the easiest to use sonde locator on the market today, the vLoc3-Cam. Its omnidirectional antenna array allows users to approach the sonde from any position. Then, its directional arrows guide you to the front or rear locate point, then directly to the sonde's location. Locating sondes has never been this easy.

Follow the arrow  to the rear locate point  then continue to the sonde .

The vLoc3-Cam is compatible with the major push and crawler cameras on the market today.
